Professional Summary

Final-year engineering student in Computer Science and AI at ENIAD, seeking a 6-month end-of-studies internship (PFE) in **software engineering**. Skilled in **Java/Spring Boot, Angular/React, Docker, CI/CD, REST APIs** and **cloud (OCI)**, with three **Oracle certifications** and award-winning hackathon projects.

Education

ENIAD — National School of Artificial Intelligence and Digital 2024 – 2027

Engineering Degree Program — Computer Science, AI and Digital Technology — Berkane

Higher School of Technology of Fez 2022 – 2024

University Diploma of Technology (DUT) in Computer Science — Fez

Certifications

Agentic AI Certified Foundations Associate Oracle, Aug. 2026

Oracle Certified Professional — Java SE 17 Developer Oracle, 2026

Oracle Cloud Infrastructure (OCI) — Foundations Associate Oracle, 2025

Professional Experience

Smart WMS Architecture Intern Aug. 2026 – Oct. 2026

Smart Automation Technologies (SAT) Tangier, Morocco

- Benchmarked 3 enterprise WMS platforms (Manhattan Active, SAP EWM, **Oracle WMS**) to compare capabilities and best practices.
- Designed a generic, modular Smart WMS architecture covering operations, inventory, fulfillment, tasks, resources, IoT and energy.
- Mapped and classified 58 use cases across 5 domains (Core / Smart / Optional) by business needs, data availability and infrastructure.
- Modeled business workflows and system interactions in UML (use-case, activity, sequence, domain and component diagrams).
- Defined an approach for integrating AI-driven forecasting, dynamic slotting, predictive replenishment and anomaly detection.

Full-Stack Developer 2024 – Present

Freelance Client projects: e-commerce, online ordering, e-learning, dashboards and data automation

- **Sbaiti Design (2026)** — Developed and deployed a production-ready e-commerce site for a Moroccan fashion brand using the MERN stack.
- Configured Cloudflare services (R2, D1) and Cloudinary for cloud infrastructure and media management.
- Automated weather data extraction with Selenium and Pandas, producing structured Excel/CSV exports.

PHP Developer — Technical Internship Apr. 2024 – Jun. 2024

École Polytechnique des Génies Fez

- Developed a trainee management application (PHP, MySQL, Bootstrap) with Chart.js analytics and QR-code certificates.

Projects

Facial Recognition Attendance Platform (PFA) | *Spring Boot, Angular, FastAPI, PostgreSQL, Redis, Docker, CI/CD, Traefik*

- Developed a platform that identifies students by facial recognition to automate attendance tracking.
- Architected a microservices backend with JWT/SSO, a Traefik gateway and a CI/CD pipeline within a four-member Agile team.

Ard — Agricultural Land Rental Marketplace (Oriental Hack 2.0 winner) | *FastAPI, React, Firebase, AI, OCR*

- Built in 72 hours a marketplace connecting landowners with renters through multimodal listings and document OCR.
- Integrated an escrow payment workflow and an AI-based verification system to secure transactions.

Financial Markets Intelligence — BI & Data | *Power BI, DAX, Power Query, Star Schema, ETL*

- Built an ETL pipeline and star schema for 120 000 financial transactions.
- Developed a four-page interactive Power BI dashboard to track financial KPIs.

Technical Skills

Backend & APIs: Java, Spring Boot, Laravel, FastAPI, Node.js, REST API, JWT, microservices, MVC, design patterns.

Frontend: Angular, React.js, Next.js, TypeScript, JavaScript, Tailwind CSS, Bootstrap, Flutter.

DevOps & Cloud: Cloud computing, OCI, Cloudflare, Docker, Docker Compose, CI/CD, Jenkins, GitHub Actions, Git, Nginx, Traefik.

Data & AI: Python, LangChain, OpenAI Agents SDK, MCP, Pandas, Power BI, ETL, Selenium, TensorFlow/Keras, OCR, web scraping.

Databases & Tools: Oracle, PostgreSQL, MySQL, SQL Server, Firebase, MongoDB, Redis, Postman, Jira, UML.

Awards & Leadership

Oriental Hack 2.0 — **1st place**, Ard project (72-hour hackathon, ENCG Oujda) May 2026

Pitch Challenge ENIADB — **1st place**, Smart Melk (fractional real estate) 2026

Club InnoVerse ENIAD — Vice President & former Project Lead 2024 – Present
