Professional Summary

Engineering student in Computer Science, AI and Digital Technologies at ENIAD Berkane, specializing in **Full-Stack Development, DevOps and AI**. Seeking a software engineering internship (PFA) to design and build end-to-end web applications using **Java/Spring Boot, Angular/React, Laravel, Docker, CI/CD** and **REST APIs**. Hands-on experience through freelance projects, microservices, dashboards, **Oracle certifications**, award-winning hackathons and applied AI/Data projects.

Education

ENIAD — National School of Artificial Intelligence and Digital 2024 – 2027
Engineering Degree Program — Computer Science, AI and Digital Technology — Berkane
Higher School of Technology of Fez 2022 – 2024
University Diploma of Technology (DUT) in Computer Science — Fez

Professional Experience

Freelance Full-Stack Developer 2024 – Present
Client projects: e-commerce, e-learning, online ordering and dashboards

- Built web applications with Laravel, React and Docker, including a QR-code ordering system, e-commerce platform, analytics back office and dashboards.
- Delivered a Laravel 9 e-learning platform with student, instructor and administrator roles, courses, quizzes and SMTP messaging.

PHP Developer — Technical Internship Apr. 2024 – Jun. 2024
École Polytechnique des Génies, Fez

- Built a trainee management application using PHP, Bootstrap, MySQL and Chart.js, including QR-code certificates.

Freelance Python Developer 2024
Data extraction & automation

- Automated weather data extraction using Selenium and Pandas, producing structured Excel/CSV exports.

Projects

Facial Recognition Attendance Platform (PFA) | *Spring Boot, Angular, FastAPI, PostgreSQL, Redis, Docker, CI/CD, Traefik*

- Developed an attendance platform that scans students' faces to identify them and automate attendance tracking.
- Designed a microservices architecture with JWT/SSO, a Traefik gateway and CI/CD pipeline within a four-member Agile team.

ASPIVOT — First-Aid Association Management | *Spring Boot, React.js, Docker, JWT, REST API*

- Digitized intervention, member and operational tracking workflows for a first-aid association.
- Implemented JWT-secured REST APIs and real-time dashboards.

Ard — Agricultural Land Rental Marketplace (Oriental Hack 2.0 winner) | *FastAPI, React, Firebase, AI, OCR*

- Built an agricultural marketplace connecting landowners with renters through multimodal listings and document OCR.
- Integrated an escrow payment workflow and an AI-based verification system.

Financial Markets Intelligence — BI & Data | *Power BI, DAX, Power Query, Star Schema, ETL*

- Built an ETL pipeline and star schema for 120 000 financial transactions.
- Developed a four-page interactive Power BI dashboard to track financial KPIs.

Technical Skills

Backend & APIs: Java, Spring Boot, Laravel, FastAPI, Node.js, REST API, JWT, microservices, MVC.
Frontend: Angular, React.js, Next.js, TypeScript, JavaScript, Tailwind CSS, Bootstrap, Flutter.
DevOps & Cloud: Docker, Docker Compose, CI/CD, Jenkins, GitHub Actions, Git, Nginx, Traefik, OCI.
Data & AI: Python, Pandas, Power BI, ETL, Selenium, TensorFlow/Keras, LSTM, OCR, web scraping.
Databases & Tools: PostgreSQL, MySQL, Oracle, SQL Server, Firebase, MongoDB, Redis, Postman, Jira, UML.

Certifications

Oracle Certified Professional — Java SE 17 Developer Oracle, 2026
Oracle Cloud Infrastructure (OCI) — Foundations Associate Oracle, 2025

Languages

Arabic: Native **French:** Fluent **English:** Intermediate / Technical

Awards & Leadership

Oriental Hack 2.0 — **1st place**, Ard project (72-hour hackathon, ENCG Oujda) May 2026
Pitch Challenge ENIADB — **1st place**, Smart Melk (fractional real estate) 2026
Club InnoVerse ENIAD — Vice President & former Project Lead 2024 – Present
