Professional Summary

Final-year Computer Science and AI engineering student at ENIAD seeking a 6-month end-of-studies internship (PFE) in **software engineering**. Experienced in microservices, cloud-deployed web applications and AI-driven solutions with **Java/Spring Boot, Angular/React, Docker** and **CI/CD**. Holds **3 Oracle certifications**

Education

ENIAD — National School of Artificial Intelligence and Digital

Engineering Degree (expected 2027) — Computer Science, AI and Digital Technology | Berkane, Morocco | 2024 – 2027

Higher School of Technology of Fez

University Diploma of Technology (DUT) in Computer Science | Fez, Morocco | 2022 – 2024

Certifications

Oracle Agentic AI Certified Foundations Associate | Oracle | Aug 2026

Oracle Certified Professional: Java SE 17 Developer | Oracle | 2026

Oracle Cloud Infrastructure (OCI) Foundations Associate | Oracle | 2025

Professional Experience

Smart WMS Architecture Intern

Smart Automation Technologies (SAT) | Tangier, Morocco | Aug 2026 – Oct 2026

- Benchmarked 3 enterprise WMS platforms (Manhattan Active, SAP EWM, **Oracle WMS**) to compare capabilities and best practices.
- Designed a modular Smart WMS architecture covering 7 areas: operations, inventory, fulfillment, tasks, resources, IoT and energy.
- Mapped and classified 58 use cases across 5 domains (Core / Smart / Optional) by business needs, data and infrastructure.
- Modeled workflows and system interactions with 5 UML diagram types (use-case, activity, sequence, domain, component) using PlantUML.
- Defined an integration approach for 4 AI capabilities: demand forecasting, dynamic slotting, predictive replenishment and anomaly detection.

Full-Stack Developer (Part-time, alongside studies)

Freelance | E-commerce, online ordering, e-learning, dashboards, data automation | 2024 – Present

- Deployed a production-ready e-commerce site (Sbaiti Design, 2026) for a Moroccan fashion brand using the MERN stack.
- Integrated Cloudflare R2, Cloudflare D1, and Cloudinary for cloud storage, database management, and media delivery.
- Automated weather data extraction with Selenium and Pandas, replacing manual collection with structured Excel/CSV exports.

PHP Developer — Technical Internship

École Polytechnique des Génies | Fez, Morocco | Apr 2024 – Jun 2024

- Developed a trainee management application (PHP, MySQL, Bootstrap) with Chart.js analytics and QR-code certificates.

Projects

Facial Recognition Attendance Platform (PFA) | *Spring Boot, Angular, FastAPI, PostgreSQL, Redis, Docker, CI/CD, Traefik*

- Engineered a platform that identifies students by facial recognition to automate attendance tracking.
- Architected a microservices backend with JWT/SSO, a Traefik gateway and a CI/CD pipeline within a 4-member Agile team.

Ard — Agricultural Land Rental Marketplace (1st place, Oriental Hack 2.0) | *FastAPI, React, Firebase, AI, OCR*

- Built in 72 hours a marketplace connecting landowners with renters through multimodal listings and document OCR.
- Integrated an escrow payment workflow and AI-based verification to secure transactions.

Financial Markets Intelligence — BI & Data | *Power BI, DAX, Power Query, Star Schema, ETL*

- Implemented an ETL pipeline and star schema processing 120,000 financial transactions.
- Created a 4-page interactive Power BI dashboard tracking financial KPIs.

Technical Skills

Backend & APIs: Java, Spring Boot, Laravel, FastAPI, Node.js, REST API, JWT, microservices, MVC, design patterns.

Frontend: Angular, React.js, Next.js, TypeScript, JavaScript, Tailwind CSS, Bootstrap, Flutter.

DevOps & Cloud: Cloud computing, OCI, Cloudflare, Docker, Docker Compose, CI/CD, Jenkins, GitHub Actions, Git, Nginx, Traefik.

Data & AI: Python, LangChain, OpenAI Agents SDK, MCP, Pandas, Power BI, ETL, Selenium, TensorFlow/Keras, OCR, web scraping.

Databases & Tools: Oracle, PostgreSQL, MySQL, SQL Server, Firebase, MongoDB, Redis, Postman, Jira, UML.

Awards & Leadership

Oriental Hack 2.0 — **1st place**, Ard project (72-hour hackathon, ENCG Oujda) | May 2026

Pitch Challenge ENIADB — **1st place**, Smart Melk (fractional real estate) | 2026

Club InnoVerse ENIAD — Vice President & former Project Lead | 2024 – Present
